NF News seeks to persuade its readers to feel angry about the evils of multiracialism and to direct their anger solely at the corrupt politicians who created a multi-racial problem in Britain, and not coloured immigrants in general. "Racism" is NOT unlawful — only "racial hatred".

No.69. AUGUST 1985.

No Reason to be Cheerful

ON JUNE 22nd the hunt for the most well-known survivor of Hitler's Germany finally ended.

International medical experts unanimously concluded that the body unearthed from a grave in Sao Paulo, Brazil was that of Joseph Mengele.

One would have thought that Jewish communities all over the world would be celebrating the news. The confirmation of the death of probably the most hated man ever in Jewish history.

Survives

But no, that hasn't been the case. Jewish Labour MP Greville Janner, formerly president of the Board of Deputies of British Jews was far from celebrating. "I do not believe a word of it. The evil skeleton in the Latin American cupboard still survives."

The *Daily Mirror*, owned by Jewish multi-millionaire, Labji Hoch, (alias Robert Maxwell), in an editorial announced that the experts examining the body could be wrong and that the whole episode was concocted to appease the outcry in America to find Mengele.

Probably the strangest reaction comes from the *Jewish Chronicle*. One would have thought they would have produced a special issue to celebrate the death of the 'mass murderer' of so many Jews.

Squeeze

In its editorial of June 28th it announces "Argument over whether the bones unearthed in Brazil are those of Josef Mengele will go on . . . and so it should. Alive or dead the search for Mengele must continue . . ."

Of course it's not strange at all that Jews should want the ghost of Mengele to linger on. The search for Mengele was an excuse to squeeze sympathy out of gullible viewers during prime TV time. A valuable commodity when those same TV screens are full of Lebanon, Palestine and the West bank.

Sentiment

The death of Mengele will be welcomed in one quarter though, by the world's historians. History can only be analysed, investigated and recorded in a clinical atmosphere an atmosphere free from sentiment, revenge or any other emotional strings that are hampering many historians today.

The next twenty years will see much of what we, today, regard as the history of the 1939-45 revised. It must be hoped that then we will have a record of events that all historians can agree upon. History must catalogue the exact order and detail of events even if that record might be unpalatable to certain sections of the community.

FRONT GET ULTIMATUM FROM TORBAY COUNCIL

TORBAY COUNCIL in Devon have written to the local branch of the National Front asking them not to hand out leaflets outside schools in the area.

The council decision arose after discussion concerning anti-drugs leaflets put out at Paignton College and Totnes Comprehensive by Torbay National Front.

REMOVED

Torbay NF organiser Mark Cotterill contacted NF Head Office concerning the council's request and in conjunction with the Branch

Liaison Department issued a statement for the council and local press: "The National Front would agree to halt their leafletting campaign of schools in Devon providing the following requests are met. That all political material is removed from classrooms and the school's library. That no anti-racist indoctrination lessons are taught in the schools. That no CND or Peace Studies are taught in schools and that the council launches its own anti-drugs campaign throughout the country to warn youngsters of the dangers of drug abuse."

NOT GUILTY

CLEARING THE NAME OF THE NATIONAL FRONT

ON FRIDAY JULY 5th a press statement was issued by Liverpool Police. It read, "There is no evidence to suggest that any National Front members were involved in the riot at the Heysel Stadium in Brussels".

The Police also announced that they had released the press statement in direct response to inquiries made by the National Front.

Credit for getting this concrete evidence clearing the National Front from any responsibility for the carnage in Brussels must go to Liverpool National Front. It was a 'Week of Action' they held to clear the name of the NF that got the response from Liverpool Police.

EXCUSED

After the first appalling allegations against the Front from John Smith and his cronies, Liverpool was a place where NF members could be excused for keeping a low profile! But not Liverpool NF Organiser Neil Roberts and his band of activists. They planned a 'Week of Action' to hit back against the smearmongers. With the dedicated activists co-ordinating a week's holiday, they blitzed certain areas of the city with 5,000 'Lies, Damn Lies' leaflets. Prudence forced them to start leafletting at 5.00 some mornings in areas where the natives were known to be restless!

The week's campaign paid off. When *National Front News* telephoned Detective Superintendent Bill Sergeant, Head of Operation Heysel at 10.30 on July 5th asking him to publish his findings he acknowledged, "We have seen some numbers of your 'Lies, Damn Lies' leaflets around Liverpool. We have received a number of calls from people wanting to know our findings with regard to National Front involvement in Brussels. Because of these inquiries I shall be issuing a

WE TOLD YOU SO NF News No 68

statement within the next half hour."

National Front members all over Britain owe a debt of gratitude to Liverpool NF. It was their action of not keeping their head down, but standing up against the smears in the very town from where they originated that helped nail the lies about the National Front.

WELL DONE LADS!

EVIDENCE OF SINISTER FORCES IN FLEET STREET

by Martin Wingfield

FAIR AND responsible journalism, and balanced reporting went out the window along with any pretence of publishing the truth when on Saturday 6th July every national newspaper, with the exception of *The Sun*, refused to publish the findings of the Liverpool Police investigating 'Operation Heysel'.

Although *The Sun* did print two lines of the Police statement it was little compensation for their front page 5 weeks earlier that had great six inch letters proclaiming "SIX NASTY NAZIS" along with an NF symbol.

By ignoring the truth, Fleet Street has shown just how corrupt and narrow-minded it has become. Their evil influence with the power to pollute peoples' minds with their twisted interpretation of events is a worry for every decent British

citizen.

Further evidence of the sinister forces working within Fleet Street came with the *Mail on Sunday's* exposure of the Front's alleged link with Italian 'Terrorists' on July 21st. It was the first time the *Mail on Sunday* had reported on the NF since reporting of the Brussels allegations.

But it wasn't the first time they had been in contact with the *National Front*.

On Friday 31st May a reporter from that same paper had a two hour interview with NF Chairman, Ian Anderson about NF involvement in Brussels. Not one single word of that interview was printed.

On Friday July 4th a reporter from the *Mail on Sunday* interviewed me on the National Front's campaign against drug abuse. He

also interviewed Peter Higgs from the committee of Croydon National Front. A dispatch rider from the paper called at Pawsons Road to pick up various literature to go with the article about our campaign. Not one single word on that story was printed.

This goes to show that the *Mail on Sunday* was only interested in smearing the Front and they were prepared to waste time and money looking for a suitable opportunity. They couldn't find that opportunity after Brussels and they couldn't find it with our drugs campaign. So as a last resort they published 'a scoop' that was total nonsense, printing allegations that the National Front has already exposed as rubbish in last month's *NF News*.

SMITH: TELLING LIES OR DRUNK

WAS CHAIRMAN of Liverpool Football Club, John Smith, telling lies or was he drunk? His outrageous allegations concerning National Front involvement in the events at the Heysel Stadium in Brussels have now been exposed as 'utter rubbish' by police investigating the tragedy.

Smith claimed, "I was approached by six NF yobs who said they started the riot".

*No one else with Smith at the time came forward to substantiate his story.

Smith claimed, "I have got a photograph of the six yobs".

*No photograph has been forthcoming.

Smith claimed "The National Front led Liverpool fans into something they wouldn't ordinarily have been involved in".

*Liverpool police say there was no NF involvement in the events in Brussels.

How can a man be so wrong? Was he lying to get himself and Liverpool F.C. out of a corner or did he underestimate the strength of the Belgium beer.

NATIONAL FRONT E.G.M.

FIGHTING FOR FREEDOM

ABOUT 300 MEMBERS of the National Front gathered in Central Hall, Westminster on 22nd June for the Extraordinary General Meeting of the National Front, the theme of which was "Fighting For Freedom".

The morning session was concerned with the various ways in which the National Front is being oppressed: the Race Act prosecutions against seven (now eight) members of the National Front, and the recent attempts to criminalise the National Front with particular reference to the malicious allegations of involvement in the Brussels football tragedy.

Michael Turner from Lambeth proposed, and Colin Todd from Newcastle, seconded a resolution calling on the National Directorate to "instigate a vigorous campaign" against the Race Act prosecutions. The second motion was proposed by Joe Pearce and seconded by Ian Anderson and called on all individuals prosecuted under the Race Relations Act to "refuse to recognise the validity of any such proceedings".

CONFRONTATION

Both motions were greeted enthusiastically and the stage is now set for a full scale confrontation between the National Front and those people who have introduced and are attempting to implement this tyrannical Act.

Nick Griffin introduced the motion, seconded by Patrick Harrington, calling on the membership as a whole to counter the media smears by a campaign of sinking local roots, and by exposing the smear mongers as our dedicated political opponents. This campaign has been given a great boost by the

production and distribution of new leaflets and a brilliant new poster.

The morning was rounded off by a quick fire description of the 96 hours after the allegations about the NF over the Brussels tragedy were carried by the media.

BACKGROUND TALK

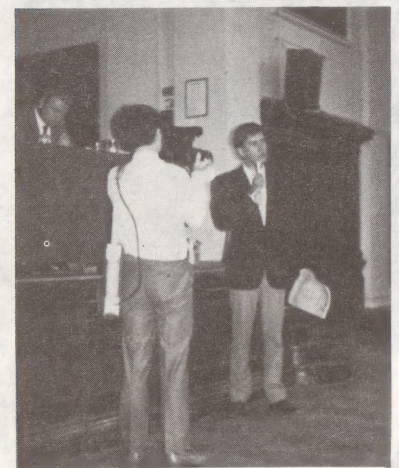

After lunch the conference took a long look at the future of the movement starting with a background talk by Joe Pearce on the last five year plan outlined in *Nationalism Today*. After this the new Constitution was introduced and this stimulated a lively debate before being passed unanimously.

● 'Land of Hope and Glory'.

The collection conducted by Paul Johnson raised £1,175 and was followed by an open forum when members were invited to ask any questions of the Executive which had been worrying them.

The closing speech was given by Ian Anderson who described the vision of a future Britain which inspired the National Front to fight against the enemies of our nation. An innovation was the massed singing of "The British Revolution" and "Land of Hope and Glory" by the membership.

● Patrick Harrington makes a point

IT'S NINETEEN years since Myra Hindley was jailed for the murder of 10 year-old Lesley Ann Downey and 17 year-old Edward Evans.

Hindley and Ian Brady tortured and butchered those children, making tapes of their victims screaming and pleading for mercy. Hindley and Brady should have been hanged in 1966. We have a saying in the National Front "It's never too late".

Racist Reporting

BLACK SDP councillor, Thomas Mann, was attacked at a Brent Council meeting by a journalist he had accused of making 'racist remarks'.

The council was meeting to discuss the sacking of a white headmistress whose appointment had angered other applicants for the job, who were all black.

No, the 'racist reporter' was not one of our intrepid team from *NF News*, but Kuba Assegai, a freelance journalist from *West Indian World*. He punched Mann, then pinned him up against the wall informing him, "If you vote with the White racist Tories I will kill you!"

JUDGES OVER-RULED

JUDGES FOR the GLC's Black Writers' Competition found that none of the entries for the best unpublished novel by a black writer were good enough for the prize.

This news infuriated the GLC's Ethnic Minority Unit and the

organiser of the competition, Prabhu Gupta, ignored the judge's verdict and went ahead to announce his three winners. He defended his actions by claiming they were in the interests of good community relations.

Labour Loonies

Monumental Bust

LOONEY Labour councillors on the GLC have voted to erect an 8ft-high monumental bust, in resin bronze, of the South African ANC leader Nelson Mandela. The statue will cost London's ratepayers £14,277.

Karl Marx Square

LOONEY Labour councillors in Manchester are proposing that Albert Square in the centre of the city be renamed Karl Marx Square.

Calling Time

LOONEY Labour councillors in Lambeth have agreed on a new policy to protect the borough's homo-sexuals. Police are to be timed whenever they call in at public lavatories and if they haven't left within 10 minutes, attendants have instructions to report the officer.

Expensive Gays

LOONEY Labour councillors in the West Midlands have given £23,500 of ratepayers money to a club for homosexuals.

The controversial gift will be used by Birmingham's gay and lesbian community leaders to furnish and upgrade their Corporation Street Centre.

Gagging the kids

LOONEY Labour councillors in Derbyshire have banned children from singing rule Britannia at the opening of a leisure complex at Heanor, Derbyshire.

Vauxhall By-Election

MOUNTAINS TO CLIMB BUT WE'VE STARTED THE ASCENT

JOHN WRIGHT, National Front candidate in the GLC by-election at Vauxhall polled 253 votes more than doubling his percentage of the vote from the 1983 General Election.

John, an advertising executive and member of the NF elections department was 'satisfied' with his campaign. In his typical careful and thorough style he analysed the vote for *NF News*.

"We have still got mountains to climb as far as elections are concerned, but with regard to campaigning there are some encouraging signs.

Lambeth branch activists performed well during the three weeks prior to polling day and help was received from numerous other London branches.

All members and supporters in the constituency were visited at least twice and the importance of getting out to vote made clear to them. You would be amazed at the number of fully paid-up members who don't vote because they think it's not worth it!

The National Front are now pulling clear of the lunatic fringe of candidates as far as votes are concerned. At Lewisham last year we were beaten by the Tory supported Pro-Abolition Alliance candidate. At Vauxhall we polled twice as many votes as the PAA candidate".

BRUSSELS FACTOR

John believes that as with Thatcher's 'Falklands Factor' during the last General Election, the NF faced a 'Brussels Factor' at Vauxhall. "There can be no doubt that some of the lies and smears made against the Front over the tragedy at the Heysel Stadium had their effect although this was combated to a certain extent by putting out 4,000 anti-smear leaflets on the last two days of the campaign".

The result was a disaster for Labour, they lost one of their safest London seats. It was even a bigger disaster for those in the Labour Party who want to promote black candidates. White Labour voters deserted 'their candidate' West Indian mother of four Lorna Boreland in their droves by either staying at home or deserting to the Alliance.

The Result

TUFFREY (Alliance)	4,600
BORELAND (Labour)	4,212
WRIGHT (National Front)	253
FAWTHROP (G.L.C. Abolition)	113
COOK (Communist)	110
SMITH (Rev. Comm)	93

POLICE REPORTED

Lambeth Police have been reported to the Returning Officer by National Front candidate John Wright for interfering with his election campaign. A National Front loud speaker car was stopped on the day of the poll and the occupants warned that they would be arrested if they continued broadcasting.

50+ SEATS

THE NATIONAL Front will be fighting a minimum of 50 seats at the General Election.

At a meeting of the NF's Executive Council over the weekend of 20th/21st July it was agreed that the wheels would be put in motion for a General Election campaign in which the NF would fight a minimum of 50 seats in England, Wales, Scotland and Northern Ireland.

On Reflection with Ted Budden

Thought Provoking

THE RECENT CONFRONTATION in Ulster between Loyalists and the Royal Ulster Constabulary is a sad reminder that the Tory policy on Northern Ireland is at last bearing fruit.

That policy has long been one of studied indifference towards the hopes and fears of Loyalists designed to leave them with a sense of isolation and despair. This coupled with a security policy that amounts to waging a "no-win war" against the IRA is no doubt intended to make them more amenable to an "accommodation" with Dublin.

Yet even when one is aware of the scope of Tory treachery it is still a trifle mind-boggling to read that Loyalists have been prevented from carrying the Union Flag through "republican" areas because it is "provocative" — this, apparently, on the orders of the Northern Ireland Secretary, the Tory turd Douglas Hurd. *Dammit, they might as well be living in Britain!*

It is worth remembering that following the arrest in Britain of IRA terrorists, a number of their sympathisers were charged with "withholding information of terrorist acts"! Quite right too. Yet if the law was applied impartially throughout the United

Kingdom it would result in the denizens of the aforesaid "republican" areas all being behind bars. It is criminals such as these that the Tories believe must be protected from "provocation" by Loyalist fiends.

DAWN RAID

Yet if the Union Flag is so provocative, what of the call to arms against Tory policy contained in the second verse of our national anthem? "Confound their politics, frustrate their knavish tricks." — my word, that's worth another dawn raid under the Obscene Publications Act.

Intrepid Birdman

IT SEEMS that at Tory Central Office, a meeting of the Anglo-Asian Conservative Association degenerated into a slight brawl when supporters of Mr. Narindar Saroop pushed and jostled Mr. Jay Gohal and Mr. Victor Begg, Chairman and Vice Chairman of that illustrious organisation. I just didn't realise how much I had in common with these wogs. I've often felt like pushing and jostling those particular gentlemen myself, not to mention planting the toe of my boot on their fat Anglo-Asian backsides.

ALL TORIES

But then I've been feeling that way about all Tories lately, particularly the strangely named Peregrine Worsthorne, Deputy Editor of the *Sunday Telegraph*.

I'm not sure why he is called Peregrine. I suppose it's because he is so frightfully hawkish — terribly right-wing, you know.

He certainly proved that recently in a fearfully forthright article condemning the "anti-racist lobby"

for being "Much more effective than the National Front in stirring up racial hatred." What a fine free-thinking chap!

He goes on to commend "the many honourable people in the race-relations industry who genuinely want to stamp out racism" and to remind "honourable anti-racists" that "the ideal of the multi-racial society has been tarnished". He also declares that "realistic white politicians now know that racism does not pay" and commend "the liberal conscience that saw the evils and dangers of Enoch Powell's infamous Rivers of Blood speech".

I suppose that despite this, some of our more simple-minded supporters will still persist in believing that the *Telegraph* is "a little bit on our side". They should forget it. Tories, especially High Tories, will sell out anyone for short-term advantage.

And Peregrine, I fear, is no high-flying falcon — just another Tory shitehawk!

In My Opinion

THE RECENT spate of political opinion polls make interesting reading; interesting, that is, to anyone engaged in studying the incidence of cretinism.

It is well known, of course, that during the season of seaside freak shows that the participants are pleased to call party conferences, "public opinion", as measured by the polls, fluctuates wildly. It apparently all depends on which set of freaks has most recently been exposed to the public gaze on the telly.

Nowadays, however, the idiot season lasts the whole year round with first one party, then another, surging in the public estimation. Like some heat of the Donkey Derby, first it's Margaret Thatcher leading comfortably in the straight after leaving her opponents floundering with a particularly strident blast of genteel fish-wifery, only to find gorgeous David Owen surging up to her quarters where he in turn is foudriven by a telling burst of Neil

Kinnock's incoherent Welsh wind-baggery. Now they're neck and neck. My word, isn't it exciting?

None of this surprises me. Indeed, most of my moments of darkest despair have been spent in pubs listening to the "political opinions" of various semi-animated nodules. If the great British electorate are not the most politically illiterate in the whole world, they must certainly be second and I can't imagine who's first.

INCOMPLETE

All of which makes nonsense of opinion polls. They're incomplete, you see. Just not enough categories.

All they have at present is Tory, Labour, Alliance, Others and Don't Knows. What is clearly needed is one more category — the Know Nothings. We would then have an accurate assessment of what proportion the parties have of the other two per cent.

HANDS AC ON THE MAINLAND THE NATIO

● Belfast NF members join local activists to demonstrate against the IRA in Brighton.

FRONT BANNED—YET IRA ALLOWED BACK TO DANCE ON THE GRAVES OF THE DEAD OF THE GRAND HOTEL

THE IRA ARE allowed to meet in Brighton but the National Front are not! That is the stance taken by Brighton Council at a meeting on Tuesday 9th July when they refused permission for the National Front to hold a 'Defend Free Speech' public meeting at the Brighton Pavilion Theatre.

It was the same Pavilion Theatre where the IRA met on May 28th and where Brighton Labour Councillor, Richard Stanton, announced that the bombing of the Grand Hotel and the death of five people was "a justifiable act of war".

At the council meeting evidence submitted by the NF was totally ignored and councillor after councillor made the most outrageous accusations against the Front. One

even claimed that NF members had collaborated with the Germans during the last war! Yet the National Front wasn't founded until 1967.

The true facts are that the National Front has been part of Brighton's political scene for the past ten years. It has fought elec-

tions, held election meetings, held demonstrations and arranged marches on local issues. For the last ten years the NF has held monthly branch meetings in the town, leafleted the whole of Brighton at least once and can be seen regularly, every Saturday, giving out leaflets in the centre of Brighton.

The IRA had been to Brighton just once before and on that occasion they blew up the town's Grand Hotel, killing five people and injuring many more.

Does Brighton Council really believe they are representing the wishes of the people of Brighton when they allow the IRA to hold meetings yet deny the National Front that same right.

Brighton councillor and IRA supporter Richard Stanton.

Republic Judges in Ulster

LEAKS FROM the secret London-Dublin talks have revealed that Thatcher is preparing for a major sell-out of Northern Ireland's loyalists. Already it has been discovered that the agreement will include Dublin government officials opening a new office in Belfast, a joint judicial system and changes in the Ulster Defence Regiment.

Republic judges poking their noses into Ulster's affairs.

Thus it is proposed that in future Republic judges would sit in Northern Ireland courts and would be involved in the sentencing of men who are prosecuted for political crimes. Dublin is understood to be pressing strongly for major changes in the U.D.R. which has always been seen as an obstacle to the eventual hand-over of Northern Ireland to the Republic.

The whole agreement stinks of a major step forward in the process of selling-out and is clearly setting out to clear the way for Britain eventually handing over Ulster to Dublin. Only the loyalists and their friends in the rest of Britain remain to halt this betrayal.

NF News and Ulster Sentinel launch monument campaign

by John Field

● Hyde Park. Not only humans are victims of the IRA.

THE RADICAL Loyalist paper, *Ulster Sentinel*, has backed up our demand that a monument should be erected in memory of the IRA's victims!

For in a recent letter to *National Front News*, Keith White, editor of the *Ulster Sentinel* wrote: "We recently received issue 68 of *NF News*. We were especially impressed by your short article, 'Ulster: Another Sectarian Murder!' We too, wholeheartedly condemn the vicious Red Republican terrorism of the IRA. We are even more scathing of the Thatcher regime's inability or unwillingness to declare war on these blood-soaked scum."

BOMB AND KILL

Reactionaries call her a strong leader. However, as she demonstrated during the miners' strike, her aim is to trample down the rights of British workers to increase the profits of her Capitalist backers. The Provos are able to

bomb and kill at will while she turns the police on peaceful traditional Loyalist parades. She clearly hasn't the will to take on and smash the IRA.

However, your idea of a monument to the victims of Fenian terrorism is to be welcomed. The government did erect one to the memory of WPC Fletcher when it suited them. The least that they can do is erect one at Westminster to record the suffering and sacrifice of all those killed by the IRA and its offshoots.

Do please keep *Ulster Sentinel* informed about any progress you may make if you are intending to campaign on this issue."

Keith White's letter is particularly welcome as obviously Ulster has faced the worst of the IRA's savage violence. It is also evident that we have struck a chord in Ulster. For — within the space of only a month — the respected *Ulster Sentinel* has echoed our demand.

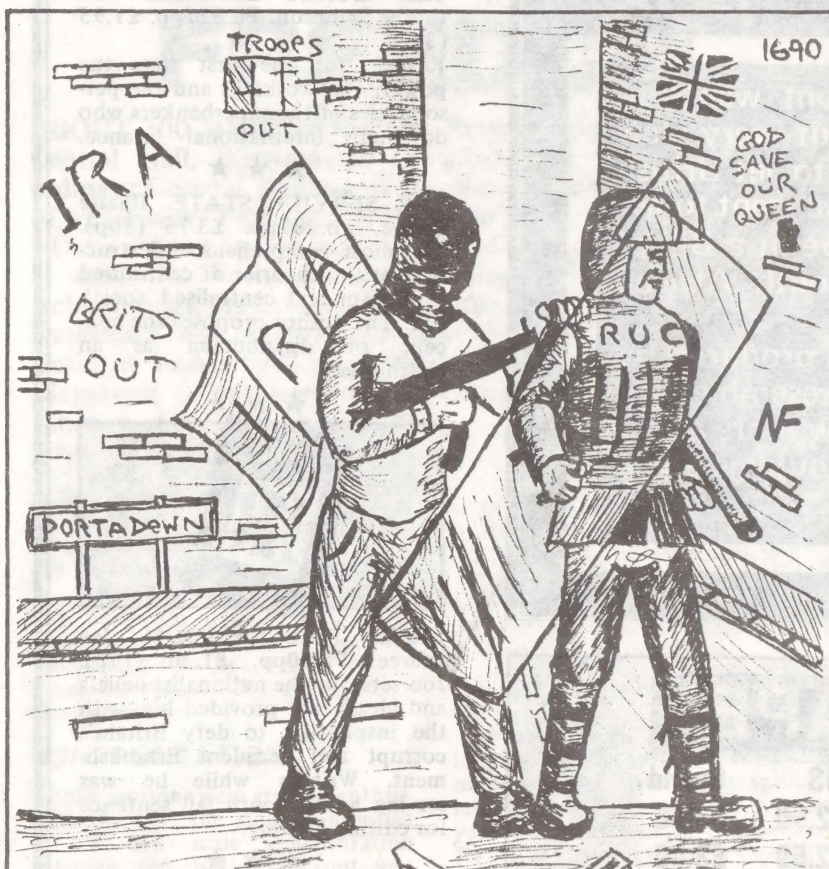

CROSS THE WATER

NATIONAL FRONT ALONE STANDS UP FOR ULSTER

Time for true Ulstermen to stand up and be counted!

by Ian Anderson

THANKS A LOT BRIT, BUT DON'T THINK YOU'RE GOING TO SAVE YOUR SKIN BY PROTECTING US FROM THE LOYALIST'S WRATH.

"THEY'RE NOT GOING to do to us what they've done to the National Front in England" so said the Reverend Ian Paisley when the Northern Ireland authorities announced that traditional loyalist marches in Ulster were to be re-routed to avoid sensitive communities, i.e. Republican areas.

While the Thatcher government continues its secret negotiations with Dublin it is determined to actively suppress any group who might jeopardise those negotiations – and that means the entire loyalist population of Northern Ireland. So while Sinn Fein, the known supporters and aiders of IRA murderers, are allowed to have councillors sitting in Council chambers with hardly a murmur from the Government, at the same time they are banning marches which have been taking place for over 150 years.

The scene for the confrontation was set in Portadown when the Chief Constable, with the support of Douglas Hurd, Secretary of State for Northern Ireland, ordered a re-routing of a march by the Orange Order away from a route that it had followed for one and a half centuries.

On Friday "the twelfth of July" the traditional Orange parade formed up at the Corcrair Orange Hall but marchers were blocked from marching down their traditional Obins Street route. Police had formed a barricade with land-rovers and with soldiers in reserve. Violence erupted with bowler hatted Orangemen beating their umbrellas against the riot shields of the police who were later attacked with a barrage of stones and bottles.

Presidency as the personal property of the Kennedy clan.

Some so-called loyalists immediately sided with the police: the Reverend Martin Smyth, John Biggs-Davidson and Lord Brookeborough, President of the Fermanagh Unionist Association jointly, and several others pleaded for moderation – in other words capitulation. Meanwhile the Irish Republic Prime Minister was crowing over the British Government's decision to ban loyalist marches: he congratulated the police and immediately followed this up by saying that the current round of Anglo-Irish talks on Ulster's future must come to an end by the end of the year.

HARD LINE

As always the security of the union between Northern Ireland and the rest of Britain lies in the hands of the hard line loyalists who have made their views known. UDA leader John McMichael condemned the actions by the police:

"They were absolutely wild and I am amazed that no-one was killed or hit in the head by a plastic bullet. They were bouncing off walls and off shop windows just above the heads of people in the crowd. The police have chosen to side with anti-loyalists and therefore must be exiled from the loyalist community. The time approaches for true Ulstermen to stand up and be counted."

RE-ROUTED

On the Saturday many loyalists, who on the Friday had been taking part in parades across the province turned up for a second larger parade in Portadown. Again violence flared as the police and army re-routed the march away from Obins Street.

It was later revealed that during the height of the violence the sister of murdered American President Kennedy, Eunice Kennedy and her husband the politically ambitious Sergeant Shriver, were seen in Obins Street talking to Deputy SDLP leader Seamus Mallon and Brid Rogers. It looks as though someone still has their eyes on keeping the American

BELFAST NF EXPOSE CAMPAIGN

BELFAST National Front, led by Jim Morrison, has recently been running a campaign to expose the proposed abolition of the Northern Ireland Emblems Act. This act makes it illegal to fly or exhibit the flag of the Irish Republic in Northern Ireland. The British government is proposing to abolish this Act as part of its deal with the Dublin Government.

A number of letters have already appeared in Ulster newspapers from Jim Morrison attacking this latest move which has been largely ignored by most Ulster politicians. With the recent reorganisation of the National Front in Northern Ireland this campaign will be given a boost by the imminent appearance of a regular local newsheet.

ANTI-BRITISH SDP/LIB ALLIANCE

THE LIBERAL-SDP ALLIANCE has demonstrated once again its anti-British stance. A joint committee under Lord Donaldson has just produced a report calling for the establishment of a "consultative parliamentary council representing Britain, the Republic and Northern Ireland" – which would

leave Northern Ireland outnumbered two to one on any decision affecting the future of their province.

However large sections of the Liberal Party do not agree with this – they want the withdrawal of British troops and a united Ireland NOW!

ETHNIC MINORITIES HEAD THE QUEUE FOR HAND-OUTS

APPLICATIONS FOR grants from voluntary organisations in Wolverhampton totalled £146,000.

Demands for money for ethnic group projects made up £126,000 of the total. Some of the more interesting ones were:

£63,000 for the Ramgarhia Sabha. £22,850 for an ethnic group which hasn't thought up a name yet. £17,450 for the Guru Ravidass Dharmik Sabha.

£14,680 for the Guru Nanak Sat-sang Sikh Temple.

£5,750 for the Wolverhampton Black Workers Association.

Ratepayers of Wolverhampton, you have been warned!

BLACKS ENJOY JULY

JULY WAS a good month for Wolverhampton's ethnic minorities. While the groups above were eagerly awaiting their cash hand-outs, Wolverhampton's West Indian elderly were receiving a new, specially adapted minibus handed over to the West Indian-only Moathouse Lane Day Centre.

Funds for the minibus were provided jointly by Help the Aged and the Wolverhampton Borough Inner Area Programme.

JEWES DEFEND RITUAL

THE NATIONAL Front campaign against the ritual slaughter of animals has been strongly condemned by an influential Jewish pressure group. Mr Eric Moonman, the director of the Centre for Contemporary Studies, stated in a recent report that the NF were using "the issue of ritual slaughter to whip up racial hatred".

"The Jewish community should be alerted to the fact that the aim of the campaign is to denigrate the Moslem and Jewish communities by using the sensitive area of animal rights, blood sports, ritual slaughter and animal experimentation.

NF's anti-ritual slaughter leaflet. £5.00 per 1,000 plus £2.00 postage.

The NF motives are quite clear. Kashrut is on their 1986 agenda and while their main thrust may be directed towards halal meat, the Jewish community is not far behind in their propaganda."

OUTRIGHT BAN

Ritual slaughter involves the killing of animals without pre-stunning. The National Front is campaigning for an outright ban on ritual slaughter because of the pain and discomfort the animals are made to suffer. The NF wants stunning to be compulsory in all cases. As a result of its campaign the NF has been attacked by representatives of the Jewish community. The president of the National Council of Shechita Boards, Mr. S. S. Levin recently warned that efforts to enforce pre-stunning would be "fiercely resisted."

BLACK RIOTERS GET I.R.A. TRAINING

IN APRIL this year 34 Asians were invited to West Belfast by Sinn Fein to attend their commemoration of the 1916 Easter Rising. Amongst the Asian delegation were representatives of the Newham 7 Defence Campaign. This visit is just the tip of what is becoming a regular line of contact between the terror gangs of the IRA and the Black groups on the mainland.

CUBA AND KOREA

Members of the Newham 7 delegation told a meeting in the New Lodge area of Belfast that both Irish and Black workers had been brought to Britain as cheap labour and that "together we built Britain", Sheera Johal went on to

compare the struggle of Black people in Britain with that of Cuba, Vietnam and Korea.

Between May 10th and 13th a second delegation of representatives of Black groups visited Northern Ireland. One of the delegation made the following observation on the visit: "We... noticed the level of self-organisation, unity and discipline, despite the repression, from which we have much to learn. And the way in which people focus their anger and activity on the oppressors... we hope to recognise the Irish experience and not allow ourselves to be political pawns".

Clearly the Blacks of East London and Brixton are learning strategy from the IRA, but they are also learning operational tactics; talking about the Race Riots of 1981: "They (the IRA) were also critical of the petrol bombs used – apparently people were using the wrong type of petrol bombs".

● Newham 7 in Belfast.

So when Britain gets its next batch of race riots, if the Blacks are using the 'right type' of petrol bombs we will all know how they learnt to make them.

However the Blacks did notice one thing on their trip which rather disheartened them. Despite the "heroic efforts of the IRA in their attempts to liberate Britain's last colony" they are still White and they exhibit that appalling malaise of all White men: racialism.

NATIONALIST BOOKS

WHAT THE NATIONAL FRONT STANDS FOR

LET BRITAIN LIVE. National Front. Pb.31pp. 70p (17p). The 1983 General Election manifesto. The most concise and yet the most comprehensive publication of NF policies.

★ ★ ★

THE RESTORATION OF PROPERTY. Hilaire Belloc. £2.50 (22p).

This is a brilliantly effective blueprint for a healthy society and a devastating attack on both capitalism and State socialism.

Belloc shows clearly how a permanent shift to well-distributed property is essential to the re-establishment and maintenance of real freedom for our people.

This classic work is essential reading for every nationalist.

★ ★ ★

THE BIOLOGY OF THE RACE PROBLEM. Professor Wesley C. George. Pb.71pp. 90p (21p). This scholarly yet very readable book explains the biological differences between the races and how those differences are inherited. It also demolishes the scientifically ludicrous proposition that racial differences are the product of "environment".

EVERYONE KNOWS that the National Front wants to repatriate Britain's coloured immigrants, but very few people know that the National Front wants to let British people directly own their place of work, that we want to get rid of American Cruise missiles, that we believe in a Bill of Rights and that we don't agree with the South African system of Apartheid.

The books and tapes on this page are not all produced by the National Front but they do closely resemble our thinking on key subjects. If you want to know more about what we stand for, then a selection of these would give you a clear indication of the direction of our ideas.

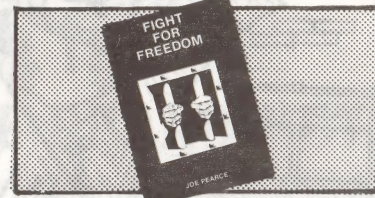

THE MONEY LENDERS. Anthony Sampson. Pb.377pp. £1.95 (33p).

Reveals for the first time the power, the workings and the personalities of the superbankers who dominate international finance.

★ ★ ★

THE SERVILE STATE. Hilaire Belloc. Pb.207pp. £3.75 (50p). The most comprehensive destruction of the theories of centralised capitalism and centralised socialism. The author proposes the concept of distributism as an alternative.

★ ★ ★

FIGHT FOR FREEDOM. Joe Pearce. Pb.40pp. £1.20 (17p). Joe sets out the nationalist beliefs and ideals that provided him with the inspiration to defy Britain's corrupt and decadent Establishment. Written while he was serving a six month jail sentence for editing *Bulldog*.

★ ★ ★

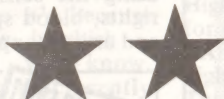

RACE. Professor John R. Baker. Pb.311pp. £7.00 (95p). The most comprehensive and detailed study available about race and racial differences. This book is an absolute must for all serious students of racial nationalism and ethnology.

NATIONAL FRONT NATIONWIDE

MY TRIP to Belfast went off very well exceeding expectations and although feeling shattered after travelling for 28 hours in two days the meeting had made it very worth while. About fifteen area Organisers met together to work out a more efficient distribution system for our literature and to plan future activities including one major one probably for later this year.

The trip to Scotland has been postponed until mid-August, but by the time this appears I will have held the meeting in Cardiff (scheduled for 24th July). Our increasing network of units is enabling us to further extend our own distribution of literature. Until now we have been operating a delivery service to units in Hertfordshire and Bedfordshire, the Midlands, Yorkshire and Humberside and the North West of England.

This is now being extended to include units in Bristol, Swindon, Reading and Slough which should

help the Thames Valley and West of England Regions, and we hope, expand the level of their operations.

I am pleased to be able to tell you that Worthing Group has reformed after a period of absence, and, as far as I know, for the first time ever we have the beginnings of a unit in Salisbury. East London and Essex Region are also working hard in advance of the YNF march in Harlow to recruit members so that we can quickly form a unit there. Croydon Branch, in particular, has been very active in Crawley where we have been recruiting steadily for some time, and we have high hopes of a new unit there before too long.

The spreading of the National Front back across the UK is encouraging and is enabling us to build a highly efficient distribution system which is an essential prerequisite if *National Front News* is going to seriously consider going fortnightly.

THE FIGHT FOR WHITE PRIDE, SOCIAL JUSTICE AND NATIONAL FREEDOM

THE NATIONAL FRONT is the only genuine patriotic political party in Britain. It is the only radical Nationalist organisation that consistently fights for White Pride, Social Justice and National Freedom.

Unlike the old parties, the National Front doesn't have any rich capitalist bosses to pay our way. Nor do we have any trade union bosses to slip us some money everytime it is needed.

At the moment, the lack of financial backing hinders us. But in the future it will be our salvation. For it will ensure that we don't have to toe the pay-masters' line. In short, the NF won't have to rely on outside financial backers — thus ensuring the eternal purity of our movement.

But we do need money! And we have to get our money from somewhere, that's where the ordinary NF members who pay their Militants' Levy come into their own.

For the Militants' Levy has gone a long way in transforming the National Front into an efficient political machine. Thanks to the monthly sacrifice

of those who pay the Militants' Levy, the NF has its own type-setting, printing and silk-screening facilities. We have also acquired a computer which will bring the NF's administration and financial systems into the 20th Century.

But we still need money! There are countless projects all designed to strengthen and promote the National Front. But — as ever — the only thing that holds us back is the lack of money.

Therefore, this issue of *National Front News* is renewing its efforts to promote the Militants' Levy. If all NF officials — and a small percentage of *NF News* readership — would donate just £5 per month, we could really transform the movement overnight!

Just think about it! A steady income of £5's per month could really put the National Front on the road to power! If you think your Race and Nation is worth fighting for, then just clip out the Militants' Levy coupon (below) and send it to us, with your first £5.

● Stand your ground on August 17th.

DEFEND OUR SALES PITCHES

AUGUST 17th will see the first Saturday in a new soccer season. That Saturday will also see a concerted effort by the police and local authorities to remove the National Front from their papersales pitches outside football grounds.

In the aftermath of Brussels it is more than probable that local bobbies will use the Heysel Stadium disaster as an excuse to move NF papersellers on with the warning, "Didn't you cause enough trouble in Belgium".

For that reason it is vital that every National Front branch purchases stocks of a special leaflet especially designed to be handed out at football grounds during the first month of the new season.

The leaflet will contain the press statement issued by Detective - Superintendent Brian Sergeant of Liverpool Police who is in charge of Operation Heysel looking into the Belgium soccer disaster. Any problems and this statement must be shown to the officer concerned.

The leaflets are available at £5.00 per thousand plus £2.00 postage from 50, Pawsons Road, Croydon, Surrey CRO 2QF.

Our papersellers must not be bullied. The National Front has every right to sell its papers outside football grounds. Even the Prime Minister, Margaret Thatcher, has acknowledged that the National Front is quite within its rights to sell papers outside football grounds as she told West Derby MP Robert Wareing on July 4th.

BRISTOL NF

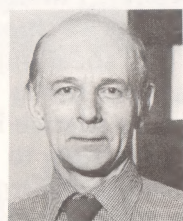

● Bristol National Front selling outside the Eastville Stadium.

ONE NATIONAL Front branch determined to stand its ground is Bristol. NF Organiser, Alan Dickason and his team have been selling outside the Eastville Stadium, the home of Bristol Rovers, for four years now and built up a large business from supporters who regularly buy papers and badges.

News of the Anti-Drugs Campaign . . . BLACKPOOL LEAFLET GARSTANG

THE BLACKPOOL and Fylde Branch of the National Front, in conjunction with the Garstang Group of the National Front handed out over 500 leaflets in Garstang as part of the NF's anti-drugs campaign.

Chairman of the Blackpool NF,

Wilfred
Smith
Chairman
of
Blackpool
National
Front

Wilfred Smith, told the local Courier newspaper that the National Front was "positive and radical in its approach to politics and determined to combat and expose the evil people pushing drugs".

At the June meeting of the Blackpool Branch, NF organiser Mike Harris told those present "We must inform the youth of our nation of the potential dangers of hard drug abuse and show them that the alternative to the corrupt values of our sick society is not heroin induced oblivion but the National Front's vision of a truly free, proud and independent Britain".

GETTING THE MESSAGE OVER IN OLDHAM

WE WILL keep our campaign going for several months to bring it to the attention of the ordinary, decent people in Oldham just how widespread the drug abuse problem is within the town".

That was Oldham National Front organiser David Probert quoted in Oldham's *Evening Chronicle* after the launch of the NF's campaign against drug abuse in the town.

UNTHINKING

The interest in the campaign by local youngsters led to the typical unthinking reaction from Oldham Labour Party. Councillor David Jones, Chairman of the Education Committee really looked a fool when he claimed that the NF's campaign against drug abuse

was "corrupting the minds of the young". Obviously Councillor Jones approves of the use of Skag, Pot and Coke.

The press coverage of Oldham NF's campaign and the high profile of NF activities in the town has led to a welcome rise in recruitment with July's Oldham Branch meeting being the best attended for a number of years.

ELEVEN ARRESTS AS THE BATTLE OF NEWCASTLE CONTINUES

by Colin Todd, our man on Tyneside

ON THE evening of June 20th Newcastle National Front held their monthly Branch meeting. By the end of the night eleven young patriots were in jail and at least one Communist in hospital.

The Red degenerates who opposed us that night learned the hard way that Geordies will not be bullied and indeed that our Liberty and our lives are of secondary importance to our determination to succeed in the struggle that lies ahead.

The last four Branch meetings of the Newcastle NF have all attracted counter demonstrations of varying size and venom, two of these meetings have also attracted audiences of almost 100. The bunch of misfits who turned up to try and prevent our meeting on June 20th numbered some 30-40, four of whom were carrying walkie talkies.

LUXURY COACH

The main group of Reds then climbed into a luxury coach which was parked opposite our re-direction point and sat back waiting for their stooges to tell them which part of Tyneside the meeting would take place at. The fact that the Newcastle Organiser had booked a hall which was all of 150 yards from the re-direction point meant that the Tyneside and District Anti-Fascist Association had with all of their usual skill managed to spend more than £200 of the ratepayers' money without the coach wheels turning once. Meanwhile the clowns with the radios were skulking in shop doorways and hiding behind lamp posts in an attempt to follow our supporters to the venue.

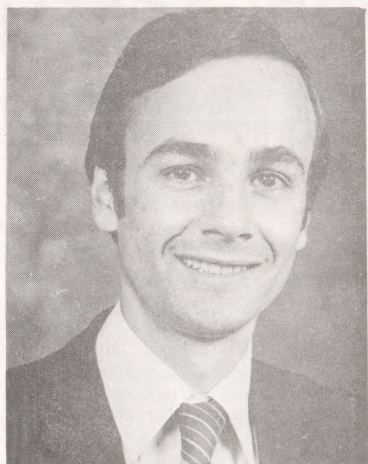

As our supporters disappeared into several pubs in the town centre

the Reds were left scratching their heads, 'what were those crazy Fascists up to now?' At this moment several of the Reds who were 'in pursuit' had the great misfortune to bump into some of our more robust members and a scuffle ensued in which a walkie talkie disappeared . . . this action immediately discouraged further attentions and the NF members all made haste to the hall, all except for the ten who were arrested that is. The local SPG had by this time appeared on the scene and immediately brought all of the diplomacy and tact for which they are world famous into play, i.e. they arrested and beat the first likely looking lads they could get their hands on.

INEPT

Despite these problems more than fifty supporters attended the meeting which lasted for more than an hour and a half. Meanwhile our amazingly inept opponents had driven their coach some 500 yards from the re-direction point, obviously determined to get the ratepayers' money's worth and climbed out to hold a 'rally'. At this it was solemnly announced that the National Front meeting had been stopped and they had succeeded once again in stopping wicked fascists from meeting on Tyneside.

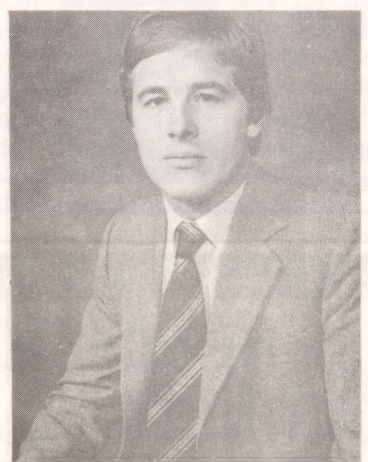

The fact that they have yet to stop a paper-sale never mind a meeting seems to make no difference to the amount of crap that McFadden (anti-fascist organiser) and his comrades can come out with. The frightening thing from my point of view is that these people probably believe their own lies and if so they are to be pitied not concerned about.

DEFEND THOSE WHO SPEAK UP FOR YOU!

AT A TIME when our Britain is being destroyed by unemployment, social collapse and the effects of mass Coloured immigration, how can it be a crime to speak out against these evils?

But speaking out for our people IS now considered a crime and criticism of government policy is now being punished with imprisonment. The tyrannical Race Relations Act is being used to try to silence Racial Nationalists and to smash Britain's last hope — the National Front.

As we go to press it has just been announced that NF member and World War Two veteran Sid Campbell, Organiser of the Party's Medway Group, is to be prosecuted under the Race Act. He faces up to two years in prison for producing a leaflet aimed at local shopkeepers, criticising the unfair advantages granted to their Asian competitors.

● HOW CAN THAT BE A CRIME? HE'S SPEAKING UP FOR PEOPLE LIKE YOU!

Sid Campbell joins a role of honour of seven other NF members now facing Race Act charges. They include:

Martin Wingfield, editor of *NF News*. Already fined £1,500 earlier this year under the same law, he now faces prosecution simply for producing this paper.

● HOW CAN THAT BE A CRIME? HE'S SPEAKING UP FOR PEOPLE LIKE YOU!

Ian Anderson, Chairman of the NF, and Joe Pearce, who spent his 21st birthday in prison for telling the truth about Black crime in *Bulldog*. They both face up to two years in prison for "conspiracy to produce material in breach of the Race Relations Act." But the prosecution admits that everything in our publications is true.

● HOW CAN THAT BE A CRIME? THEY'RE SPEAKING UP FOR YOU!

Four NF paper-sellers in Newcastle also face prison sentences or fines of up to £2,000 each under the Race Act. Yet all they were doing was peacefully selling *NF News* to local people who wanted to read the truth about what is being done to Britain.

● HOW CAN THAT BE A CRIME? THEY'RE SPEAKING UP FOR YOU!

We Will Not Be Silenced

The NF's leaders and membership are determined not to be silenced. So we are launching a nationwide campaign to fight the Race Relations Act and defend traditional British freedoms.

There will be a series of public meetings on the theme "Defend Free Speech". Special editions of *NF News* will keep tens of thousands of people informed about the court cases and our Nationalist message. Leaflets, posters and stickers will be distributed by the hundreds of thousands. All will hammer home the NF message: "It's No Crime To Speak Up For Britain".

Make Their Sacrifice Worthwhile!

But we need your help. Such a vigorous campaign will cost a great deal of money. We must have at least £1,000 over and above our normal income to help organise activities and produce publicity material in the enormous quantities needed.

Only an all-out campaign can build the National Front fast and give the people being prosecuted the support they deserve.

They are prepared to give up their work, homes, families and freedom to save our country. All they ask in return from you is the financial support the National Front needs to make their sacrifice worthwhile.

YES, BRITAIN IS WORTH FIGHTING FOR!

Please find enclosed a donation of £ . p for your 'It's No Crime To Speak Up For Britain' campaign.
